

LitMap

LitMap is a joint effort between the Oakland Literacy Coalition, Oakland Unified School District, and Rogers Family Foundation, with the goal of mapping literacy resources across the city of Oakland. The hope is that LitMap will be used by school leaders and decision-makers, teachers, partner organizations, and community members, to get a better sense of the literacy service providers available to best serve our students and families.

The dashboard features detailed community partner profiles, school profiles, and interactive mapping tools that can be used to access data on OUSD child development centers, OUSD elementary schools, Oakland charter elementary schools, and community partner literacy providers. **Litmap currently includes 2017-18 data.**
